

Dear colleagues,

since in both cases TIR Holders IRN/057/1445 and IRN/057/6362 submitted duplicated pre-declarations to France, we would like to ask you to urge these Holders to modify their TIR-EPD preferences in order to include France in the list of countries where EPDs are not sent by default, as shown below. This would help us avoid any duplication and potential problems for the French customs in the future.
